**WHAT SPEAKS TO ME** is a compilation of music that expresses the true essence of what still excites me about the process of making music. I began my musical journey 34 years ago and in many ways this recording represents the evolution of that journey thus far. I've tried to carefully choose music that I've lived with in my imagination and I'm extremely lucky to have had some of my favorite musicians interpreting my vision on this CD. I hope that you enjoy listening to this as I have had a lot of fun making it. —Andy Ezrin, 2008
